

Podcast Alley

Podcast Alley is a site that catalogs podcast feeds and provides links to them. Thousands of feeds are available, from comedy shows to weekly suspense stories. There is even a podcast featuring a couple that talks about different wines every episode. Podcast Alley features the best podcasts on the front page regularly, along with a short article about the authors and their work and an interview with the creators.. In addition, the site keeps a list of the most popular feeds in a sideline, allowing visitors to quickly see what the community appreciates.

A visitor to Podcast Alley can search by genre, learn how to make their own podcast, discuss things with the community in the forum, and find software related to podcasting. The site provides a wide range of resources, as well as a large quantity (many thousands) of podcasts that listeners can browse and subscribe to.

Podcast Alley is an example of a podcast directory that is well run and offers a large selection. The site also has a strong community that can help visitors find podcasts on topics that interest them or give them the information they need to set up their own podcast, and of course, add it to the directory. Anyone that is interested in finding great podcasts should take a look at Podcast Alley and the selection they have.
