Article Body:

Graphology is the name given to the general subject of personality analysis based on handwriting analysis. Just as in Psychology there are various schools of Psychology - Behaviorist, Psychoanalytical, and so on - so too in Graphology.

Graphoanalysis is one such school and, from my experience, the most scientifically oriented reliable field of Graphology. Graphoanalysis is personality analysis based on handwriting analysis of the slant, size, measurement, pressure, spacing, and arrangement of letters and words on the page.

Graphoanalysis is used to analyze Latin lettering languages usually written in cursive handwriting (letters joined together). Printing can also provide information as to the writer's personality. To a certain extent, an expert Graphoanalyst can analyze handwriting in languages written in letter forms other than Latin lettering.

Graphoanalysts are experts in handwriting analysis. The International Graphoanalysis Society (IGAS) is the full name of the school of Graphology to which the Graphoanalyst belongs.

A Quick Handwriting Analysis can be fun at a party or a get together. The

Graphoanalyst will usually convey to the people whose handwriting is being analyzed the most outstanding features of their handwriting.

A Free Analysis is sometimes given to wet your appetite for more knowledge on the subject of graphology in general and graphoanalysis in particular.

In depth handwriting analysis requires many hours of measurement of letters and analysis of the combination of traits appearing in the handwriting and is used for more serious purposes such as determining a person's job qualifications. Graphoanalysts are professionals who do this type of work.

Handwriting recognition by courts of law is a well known fact today. In court cases handwriting analysis is used to determine whether or not a signature on a document is valid. Graphoanalysts who have specialized in recognizing forgeries are called upon to give evidence in such cases and may have crucial influence on the final decision.
