

KATA Camera Bag Product Lines: Combining Quality and Style Perfectly

One of the leading brand companies which manufactures, develops, and markets high quality products is the KATA Group or KATA. They integrated smart protective solutions with their innovative carrying equipments. Thus they created high-end products suited for professionals all over the world with regards to Protection, Security, High-Tech Industries, and Video-Photo markets.

Their history began when Dror Tishler and Nitzan Kimchi, owners and founders of KATA, got acquainted with complicated military equipments. It was the time when they were serving the Israel Defense Forces (IDF). From then on, they offered and developed solutions for the secret services of Israel as well as the IDF for more than a decade. They established KATA in 1992 as a response to the increasing demand for their products. KATA evolved as a top quality company from being once an R&D laboratory.

KATA camera bags are very nice options for photographers in carrying their photo paraphernalia. They are offering wide selections of designs that will suit every discriminating photographer's unique tastes and needs.
